**FIREWORK
RANGE**

WELCOME

With over 25 years of experience in the design, importation, storage and distribution of fireworks, CT Pyro Group provides a professional service to our retail partners. From independent retailers to supermarkets, our aim is to exceed your expectations. All products comply with CE standard BS EN15947, and we are members of the British Fireworks Association.

Our storage and distribution facilities allow us to supply quality fireworks at the correct time and the correct price. Haulage is handled both by the companies' own vehicles with trained ADR drivers or sub-contracted to well-established hauliers who again operate within ADR. Therefore,

we offer delivery options from 1 pallet to HGV full loads with various services such as next day and multi point delivery, if you have any specific delivery or product requirement please just ask.

We are always happy to help with your Licensing procedure, storage requirements, POS needs and any other queries or requests that you may have. We value any feedback we receive and are always experimenting with new ideas and products to continue to provide the best possible products for the best possible prices.

Finally, we would like to thank all our customers for your business and to take this opportunity to wish old and new customers good luck this year.

CABINETS, BANNERS, DUMMY SAMPLES AND POS

We can help with your point-of-sale display requirements with display cabinets, banners, dummy samples and other point of sale material, all available.

Please contact our sales team for full details.

FIREWORKS WITH A DISPLAY LID

Keep an eye out for items with the display lid logo, as each outer carton of these items **contains a display lid, that can be used in retail outlets as a dummy sample!**

HAVE YOUR OWN WEBPAGE

We can create your own webpage that gives online visitors the chance to see images, videos and details of the specific range you are running. The webpage is non branded and only contains your contact details, you can easily create a link to the page within your own website and social media.

BRITISH STANDARDS – (CE)

All fireworks offered for sale are tested to comply with BS EN15947 (CE).

VALUE ADDED TAX

All trade prices quoted are exclusive of VAT. All recommended retail prices include VAT at 20%. Should the VAT rate change, the retail prices will be amended accordingly.

PLEASE NOTE

Prices shown were fixed in April 2026 and will be maintained unless dramatic increases in material costs occur. All goods are offered subject to availability. We reserve the right to vary contents of all selections and packs.

LICENCED STORAGE

Before the purchase of fireworks, you are required under the Explosives Regulations 2014 to licence your premises. Licensing fees can be obtained from your local issuing authority. CT Pyro must see a copy of a valid licence before any deliveries can be made to the licenced premises.

WEIGHT LIMITATIONS

The storing of any explosives is controlled by the Explosives Regulations 2014. These Regulations require any person storing explosives to hold a licence. Local Authorities are responsible for issuing licences for the storage of amounts up to 2000kg Nett Explosive Mass (NEM). For greater quantities, a licence is required from the HSE. The premises, surroundings and separation distances that you are able to achieve at the storage location will have an effect on the total quantity you will be permitted to store. You should not automatically assume that your shop is suitable to store the maximum amount. The maximum amount of HT4 that may be stored without the need for separation distances is 250kg NEM.

The maximum amount of HT3 that may be stored without the need for separation distances is 25kg NEM.

When storing a mixture of HT3 (1.3G) and HT4 (1.4G) fireworks in a single store, the total resulting NEM is determined to be all HT3. You should always review your storage licence prior to purchasing HT3 fireworks to ensure your storage capacity and safety distances are not exceeded.

FIREWORK REGULATIONS

The Explosives Regulations permits the sale of fireworks during the following periods only;

November 5th – (from 15th October to 10th November)

New Year – (from December 26th to 31st)

Chinese New Year – (on the first day of the Chinese New Year and the 3 days immediately preceding it)

Diwali – (on the day of Diwali and the 3 days immediately preceding it)

Should you wish to sell fireworks outside of these periods then an additional licence to sell fireworks will be required from your local authority (£500).

PREVENTION OF UNDERAGE SALES

A statutory notice, relating to the illegality of sales to and possession of fireworks by under18's must be displayed in full view of the buying public. This notice may be obtained from either your supplier or from your local authority. It is illegal to supply a firework which has a decibel level of over 120dB A-Imax. CT pyro is committed to supplying only fireworks below this level.

In the unlikely event of a retailer selling a quantity of fireworks in the excess of 50kg NEM to any one purchaser, a record must be kept of the name and address of the purchaser, plus the weight of the consignment.

CT Pyro Group Limited, Unit 2 Binbrook Technical Park, Binbrook, Market Rasen, LN8 6HF.
